

Jaehoon Song

402 Suwanee Oaks Dr NE, 30024, Suwanee, Georgia, USA | ☎ +1 470-350-8926 | ✉ jsong421@gatech.edu | 🌐 GitHub

Software engineer with production experience across desktop, mobile, and web platforms. Strong foundation in mathematical algorithms, SOAP/RESTful APIs, backend, database, and CI/CD throughout SDLC in Agile collaboration. Passionate about learning and delivering customer- and data-driven products.

EDUCATION

Georgia Institute of Technology | Atlanta, GA

Jan 2022 – Dec 2025

Bachelor of Science in Computer Science

GPA: 3.78/4.00

- Coursework: data structures & algorithms, discrete mathematics, automata & complexity, probability & statistics
- Frontend, UI/UX, and data analytics: Android apps (MVVM), OpenGL, Unity, and D3.js data visualizations
- Achieved Dean's List recognition, College of Computing, 2022

Gwinnett Technical College | Lawrenceville, GA

Jan 2018 – April 2021

Associate of Applied Science in Computer Science

GPA: 3.96/4.00

- Built and managed multi-platform projects (desktop, web, mobile) using C/C++, with focus on system design, OS concepts, networking, and concurrency
- Developed Java enterprise and microservice applications (JSP, Servlets, Spring Boot) with JDBC-backed databases (Oracle, Derby, MS Access), and used Python for data analysis and media processing
- Earned Java Programmer Certificate, Honor's List, and Award of Merit

EXPERIENCE

Columbia Academy | Duluth, GA

Sep 2024 – Present

Freelance Lecturer (1099 Contractor)

- Instructed mathematics (AP and Georgia Tech Math; 20+ students), physics (10+ students), and computer science courses (AP CSA and principles in Java/Python/JavaScript; 10+ students) following curriculum standards for high school students
- Designed coding challenge problems and implemented comprehensive unit tests to evaluate algorithmic correctness and programming proficiency
- Developed comprehensive 2025 SAT Summer bootcamp materials using customized *LaTeX* environments and commands for professional typesetting; released as open educational resources

Georgia Institute of Technology, School of Physics | Atlanta, GA

Jan 2023 – Dec 2024

Teaching Assistant (TA)

- Operated lab sessions for PHYS 2211 (managed 100+ students) under Emily Alicea-Muñoz
- Assisted students in completing lab assignments and understanding physics concepts including statics, dynamics, thermodynamics, and quantum physics
- Earned Faculty Honors from School of Physics, 2023

Georgia Institute of Technology, School of Computer Science | Atlanta, GA

May 2022 – Dec 2022

Undergraduate Teaching Assistant (UTA)

- Conducted office hours and recitation sessions for CS 2050 (50+ students; discrete mathematics: combinatorics, graph theory, number theory, cryptography) under CoC faculty supervision
- Prepared and edited problem sets, solution guides, and recitation handouts using *LaTeX*, coordinating with instructors

SK C&C USA | Suwanee, GA

Apr 2021 – Aug 2021

Software Developer

- Contributed to an MES for battery manufacturer, SK Global Battery, using WinForms (.NET); implemented TCP/IP networking and PLC integration (SOAP over HTTP, XML)
- Maintained VMs (VMware) and Oracle database operations to ensure data consistency across plant systems
- Created user documentation and operator guides for MES interfaces serving 300+ users

RELEVANT PROJECTS

JS Law Group | Duluth, GA

Oct 2025 – Present

Web Developer (1099 Contractor)

- Built responsive, multilingual Flask web app with custom JSON i18n (JavaScript), dynamic Language Switcher and Wizard components (SCSS/SASS, Bootstrap), and server-side validation/CSRF (Flask-WTF)
- Built CI/CD pipelines by Github Actions, Dokku, and Nginx on OCI with OS-aware launcher (Gunicorn/Waitress)
- Conducted technical feasibility analysis and drafted system documentations for Twilio SMS and Mailchimp APIs to support automated post-submission workflows in future iterations

TradingBot (Solo Project) | Remote

Mar 2025 – Present

Software Developer

- Built a scheduler-driven ETL pipeline that continuously extracts transactions and position data from broker RESTful APIs (token-based auth) using the low-leveled HTTP library, **requests**, and executes accounting-based trading logic
- Designed and implemented a RESTful API integration layer with JSON/CSV data parsing and error handling

Greater Youth Collaborative Opus (GYCO) | Remote

April 2025 – Oct 2025

Web Developer (Contractor)

- Developed a complete static website for a Korean-American youth orchestra institution (50+ members) following MVC architecture with SASS for Bootstrap customization and Vanilla JavaScript
- Designed build automation scripts, intuitive UI/UX, and a content management system for student administrators; posts are actively managed via the admin workflow (Roster of Members)

Grady Health System (Georgia Tech Capstone Project) | Atlanta, GA

Aug 2023 – May 2024

Software Developer and System Architect

Confidential

- Led system architecture and design documentation in an Agile capstone
- Implemented heart-care app to detect patient complications from patient-reported data; built socket-connected local database (microservice pattern, Apache Derby)
- Implemented statistical analysis module for Flask RESTful API to detect trends and generate clinician alerts
- Delivered Flutter mobile app and Flask web portal in coordination with Dr. Muling Lin (affiliated with Emory College of Medicine)

SKILLS

AI Agents and IDEs: Android Studio, OpenAI API, Claude CLI, Gemini CLI, GPT, Copilot Agent, Cursor IDE

Languages: C/C++, C#, Python, Java, Kotlin, JavaScript/TypeScript, Node.js

Frameworks/Libs: React, Flask, FastAPI, SASS/Bootstrap, D3.js, OpenGL/Unity, Android SDK, JUnit, PyTest, Jest, JavaFX/Swing, Qt/PyQt, Spring Boot, .NET, WinForms

DevOps: Git, GitHub Actions, GitLab CI, Jenkins, Docker, OCI, Cloudflare, VMware, Dokku, Nginx, Gradle, Maven, CMake, Poetry, Jira, Confluence

Databases: Oracle, MySQL, SQLite, MS Access, Apache Derby

Scripting: Bash/Zsh (Linux/OSX), Batch/AWK (Win), MATLAB

Documentation: Doxygen, Javadoc, JSDoc, *LaTeX*

LANGUAGES

English (Fluent), Korean (Native), Japanese (Intermediate)
